Gemini (May 21 - June 20)

Have you ever been so busy that you wished you could clone yourself just to get everything done? That's the Gemini experience in a nutshell. Appropriately symbolized by the celestial twins, this air sign was interested in so many pursuits that it had to double itself. Because of Gemini's intrinsic duality, they're often falsely misrepresented as two-faced. In reality, however, Gemini rarely has a hidden agenda. Playful and intellectually curious, Gemini is constantly juggling a variety of passions, hobbies, careers, and friend groups. They are the social butterflies of the zodiac: These quick-witted twins can talk to anyone about anything. Find them buzzing between happy hours, dinner parties, and dance floors.
